Divya Kandala

Seattle, WA | Boulder, CO | 425.394.2540 | dkandala@gmail.com | divyakandala.online | linkedin.com/in/divya-kandala

UX/UI Designer focused on creating clear, useful, and accessible digital experiences. Combines user research and data analysis with UX design to uncover user needs, identify opportunities for improvement, and develop intuitive design solutions.

Education

University of Colorado Boulder | Graduation: May 2027

Bachelor of Science, Information Science | *Minor, Creative Technology and Design* | *Certificate, User Experience* | *(GPA: 3.68)*

Achievements: CMDI Dean's Scholar Recipient 23', 25'

Relevant Coursework: Designing Interactions, Information Ecosystems, Music as Information, User Experience Design 1&2,Community-Based Design, Communicative Information Visualization, Design Foundations, Tiny Games, Statistics, Quanitative Reasoning

Professional Abilities

UX Design, Wireframing & Prototyping, Usability Testing, User Flows, Graphic Design, User Research Methods, Information Architecture, Data Visualization, Information Visualization, Product Development, Sentiment Analysis, Trend Analysis

Tools: Figma, FigJam, Adobe Creative Suite (Illustrator, Photoshop, InDesign), Microsoft Office Suite, Canva, Miro, Tableau, Azure DevOps

Programming Languages: Python, Python Libraries (NumPy, Matplotlib, NLTK, Beautiful Soup, Seaborn), HTML, CSS, JavaScript, SQL

Work Experience

CMDI Academic Peer Advisor — Mar 2025 - present

University of Colorado Boulder, College of Communications, Media, Design and Information | *Boulder, CO*

- Advised undergraduate students on 8+ areas of academic planning, including course selection, majors, minors, certificates, intra-university transfers, and study-abroad opportunities.
- Analyzed individual student goals and academic requirements to develop personalized academic plans and actionable recommendations.
- Collaborated with CMDI advising staff to ensure accurate and consistent communication of university policies and academic information.
- Communicated complex academic information to students through individualized advising and problem-solving, supporting informed decision-making and student success.

Information Specialist Intern — May 2024 - present

Cascade Kidney Specialists | *Bellevue, WA*

- Analyzed physician workflows and optimized system templates to align with practice requirements, supporting system-level process improvements across clinical workflows.
- Designed and delivered comprehensive user guides and training sessions to support staff onboarding and technology adoption across clinical users.
- Supported the migration of ~400 GB of patient and case history, leveraging prompt engineering and ChatGPT Codex to develop and refine migration workflows, assist with data organization and reconciliation, and troubleshoot discrepancies while validating data integrity.
- Took initiative in testing and validating system functionality, proactively identifying and resolving issues to minimize disruptions, improve system reliability, and enhance the end-user experience.

User Experience Design Engineer Intern — Jul 2025 - Sep 2025

CareDocs.AI | *Redmond, WA*

- Designed and iterated user-centered solutions in Figma, translating user testing feedback into high-fidelity mockups and refined interface designs that addressed user needs and improved the overall product experience.
- Partnered with product managers and engineers to translate user needs and product requirements into implementation-ready design specifications and feasible interaction solutions.
- Drove the transition from UX concepts to implementation-ready designs, establishing clear specifications and requirements while guiding product and engineering teams toward feasible, user-centered solutions.
- Collaborated cross-functionally across product, engineering, and company leadership to communicate design rationale, incorporate feedback, and align product priorities with user needs.

Project Work

Dive Deeper Into the World of Music — Jan 2026 - May 2026

- Analyzed audio properties of the Top 10 Spotify hits from 2024 using Python, exploring relationships between popularity, energy, tempo, and danceability and translating complex findings into accessible visual narratives.
- Applied UX and information-visualization principles to design a hand-illustrated data zine in Adobe Illustrator, combining quantitative analysis with visual storytelling to make music data engaging and understandable.

Man's Best Wingman — Jan 2024 - May 2024

- Designed a pet-centric social/dating app concept by conducting user research and translating user needs into product requirements, information architecture, and core interaction flows.
- Created and iterated wireframes and prototypes to explore onboarding, discovery, and relationship-building experiences, incorporating design critique and user feedback.

Leadership Experience

Phi Sigma Rho Sorority - (Alpha Mu Chapter) | April 2024 - present

- *Chapter Vice President*
- *Vice President of Internal Affairs*
- *Director of Diversity, Equity, and Inclusion*

Telugu Student Association | August 2024 - present

- *President*
- *Marketing Chair*

Boulder Bhole Bhangra Dance Team | August 2024 - present

- *Choreography Captain*
